Dear Owner(s),

We want to do our very best for you over the next few weeks and the details you write down are very important in achieving outstanding performance. The better information you give us, the better we will understand your pet(s) and any special needs you or your pet(s) may have.

Please allow an hour of time for your scheduled pick up so that we can go through the commands with you and your family. If you are uncomfortable with the commands and follow on instructions, we can schedule a second meeting to go over the information again.

Owner's Name _____

Phone # _____

Dog's Name _____

Start Date _____

Dog's Age _____

How long have you had him/her? _____

Behaviors to be trained of leash:

- Sit/stay
- Down/stay
- Voiceless recall
- "Place"- go to place and stay
- Heel
- Release/free time

Does your dog have any previous obedience training?

Trainers:

Mike Shafer

Does your dog have any behavior problems that would affect training? For example, dog aggression, people aggression, or food/toy aggression.

Does your dog have any specific games he/she likes to play or treats he/she finds especially wonderful?

What type of collar and leash is your dog accustomed to wearing? We will be using a Remote Training collar which will fit snug to the dog's neck, will this be a problem?

Does your dog have any health problems that I should know about before training begins? Example: collapsing trachea, hip dysplasia, food allergies

Does your dog have any specific fears? Example: thunder phobia, other dogs, men, etc

Trainers:

Mike Shafer

Are there any special needs for your dog outside of training? Example: medication, conditions that limit exercise, feeding specifics, etc.

This training is designed to teach your dog to respond to commands off leash. For this to happen the dog must be taught the commands on leash, and then make the transition to off leash using a Remote Training collar. You are welcome to call for updates anytime and are encouraged to do so. Visitations are also encouraged with scheduled times with the trainer.

Your dog will receive a Sport Dog Training Collar, which is water proof and very rugged. They will also receive a bed, and a certificate of completion. After the residence program is complete, you will receive one follow up lesson per month which can be conducted in your home or at PetSafe Village.

Thank you for entrusting your dog's care and training needs with us!
